EDUCATION

Airlangga University | 2023 - Now
Informatic Engineering

SMAN 20 SURABAYA | 2020-2023
Natural Sciences (IPA)

EXPERIENCE & PROJECTS

2024 | Group Project | Kebaya Rental Website

Collaborated in a team of three to design and develop a web-based kebaya rental application.

- Implemented core features such as user registration, product catalog, and booking system.
- Conducted software testing using both white-box and black-box methods to ensure functionality and reliability.

2025 | Independent Project | Dessert E-commerce Application

Developed an e-commerce mobile application for dessert products using Flutter and Dart.

- Designed and implemented features for product browsing, cart management, and order placement.
- Managed backend operations and database integration using Pocketbase for efficient data handling.

SKILLS

- Programming Languages: PHP, MySQL, HTML, CSS, JavaScript (basic), Dart, Golang
- Frameworks: CodeIgniter, Laravel (basic)
- Databases: MySQL, Pocketbase
- Tools: Visual Studio Code, Git/GitHub, Figma
- Soft Skills: Communication, Teamwork, Initiative, Creativity, Responsibility
